

ProPlay 25mm – Playground Shockpad

ProPlay-25 is designed to protect children against heavy head injuries and is installed under synthetic turf to form an impact absorption surface. ProPlay-25 is supplied as interlocking tile panels and provides critical fall height protection up to 1.6 metres.

The Technical Stuff

Product Code:
PP25

*Critical Fall Height:
1.6 meter

Application:
Under synthetic turf

Thickness (mm):
25

Mass Per Unit Area:
2.7kg/m²

Pad Size:
2.25 x 0.9 = 2.06sqm

Force Reduction:
40%

Vertical Deformation:
11mm

Water Infiltration Rate:
36,000mm/hr

Thermal Conductivity:
0.05 W/m.K

Thermal Resistance:
540 m². K/W

*This product has been tested to requirements of AS/ NZS4422:1996 Amdt1and BS1177:2008 NZS828:2015 refers BS1177:1998 Impact absorbing playground surfacing
